#### **Probable Cause**

On 8/30/09 at around 0127 hours, I Sergeant B. Grubbs was traveling south on FM 685 around the 600 block when I observed a yellow jeep pass me traveling north. I observed that the jeep was driving on the solid white line on the right side of the road. I then turned around to catch up to the jeep as it was approaching HWY 79 while traveling north on FM 685. As the jeep arrived at the intersection, it did not signal its turn prior to 100 feet and did not stop at the red light. The jeep then turned right traveling east on HWY 79 W and continued to weave within its lane. I then stopped the vehicle around the 300 block of HWY 79 W in the city of Hutto, county of Williamson, Texas. The vehicle was identified by TX LP 838XGN as a 2000 Yellow Jeep.

I then made contact with the driver and he identified himself by TX DL#19351385 as Carl Nelson Foster W/M DOB 12/10/72. During my initial contact with Foster I observed his that his eyes were glassy and his faced was flushed. He then stated to me that he had a couple of drinks. I could also detect the strong odor of alcohol and breath mints on his breath from the other side of the vehicle.

When Foster exited the vehicle, I noticed that his steps appeared slowed, shuffled and he swayed when he stood and walked. Foster stated he was coming from a friends house and had a couple of beers. He stated that his first beer was around 9 PM and his last beer was at 10 PM. He later stated he had more to drink then changed his story again to only having a couple of beers. He stated he was watching the UFC fight at a friends house in Round Rock and nursed two beers all night. He also stated that he was a "cheap date" and hadn't drank in a few weeks so it was affecting him. While speaking with him, many of his statements didn't make sense and were not appropriate to the questions that were asked

I then observed 6 of 6 clues of HGN in his eyes and he performed poorly on other SFST's. Foster then stated that he didn't call a ride home because he didn't want to inconvenience anyone. After observing Foster's driving, detecting the strong odor of alcohol on his breath, his statements about drinking, him changing his statements about how much he drank, his strange responses to my questions, his swaying, unsteadiness, 6 clues of HGN, poor performance on SFST's and his overall intoxicated state, I believed that he had lost his normal, physical and mental faculties to operate a vehicle safely and was intoxicated due to consuming alcohol. In my opinion, Foster was intoxicated and I then placed him into custody for DWI.

The above vehicle was impounded. Foster was then transported to Williamson County Jail without incident. Upon arrival at the jail, I read the DIC-24 and he refused to provide a breath specimen.

After Foster was arrested and during a criminal history check, he showed to have the following: DWI Conviction 11/9/2011 in Travis County Court #5, DWI Conviction 2/25/2002 in Williamson County Court #3 and previous arrest in Williamson County 8/13/2014.

#### Field Sobriety Tests

I requested performance of field sobriety tests by the suspect and recorded the results and my observations of the suspect's performance of field sobriety tests and signs of intoxication in the attached SFST SCORING SHEET, which is attached hereto and incorporated for all purposes.
